## Planning a winter vacation?

Planning to escape to someplace warm and sunny?

Got your tickets? Passports?  
Sunscreen? Shots? That's right,  
shots. There is not better protection  
against unwelcome disease.

South Eastman Health has a 'travel nurse' who will do much more than give you your shots. She will help you develop a personalized health plan based on your travel plans and health profile. Travel nurses not only provide recommended immunizations, they have up-to-date information on disease risks around the world, and precautions you should take in order to stay healthy while traveling.

For more information call 204-346-6123.

Don't forget your sunscreen. If your shadow is shorter than your height, you risk getting sunburn. Protect yourself with SPF 15 or higher.
