**Renovations for Ste.
Anne Hospital**

Ste. Anne Hospital was built in 1950 and is very
ready for the exciting 1.5 million dollar face-lift
it is about to receive. Patient rooms will be
renovated so patients will have better access to barrier free
washrooms. The nursing station will be upgraded and the birthing
area will receive attention. A new sprinkler system is being
installed.

This work is scheduled to start in late June or early July. It will
result in only partial closure of the Hospital as day surgery and
emergency services will carry on as usual. Physicians will be
admitting to Bethesda in Steinbach during the construction and
some staff will be relocated there.

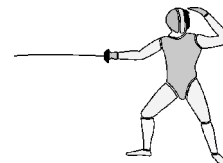

Some may remember the work
done five years ago after the fire.
That was focused in the support
services wing where the electrical
system was upgraded and the
building was cleaned to remove
the smoke damage
