Children and drugs-of any kind-are a bad mix. If you have any prescription drugs in your home, keep them well out of children's reach. Don't rely on "child-resistant" packaging: the packaging hasn't been invented yet that will stop a child who's really determined. Take precautions even if you only have youngsters

visiting you periodically. It only takes a second for them to swallow what could be a life-threatening dose.

**INTERESTING TID-BITS:**

- ✓ In Shakespeare's time, mattresses were secured on bed frames by ropes. When you pulled on the ropes the mattress tightened, making the bed firmer to sleep on. Hence the phrase 'goodnight, sleep tight'.
- ✓ What is the only food that doesn't spoil? Honey
- ✓ 'I am.' is the shortest complete sentence in the English language.

- ✓ In Scotland, a new game was invented. It was entitled Gentlemen Only, Ladies Forbidden... and thus the word GOLF entered into the English language.
